Recommendation

Staff recommends that the Mayor and Council receive the Planning Commission's Annual Report.

Discussion

The Planning Commission's Annual Report for 2024 is the document by which the Commission reviews its performance during the preceding year, with a focus on its comprehensive planning, zoning, and development activities during that period and the major planning projects and issues considered by the Commission. The Report will be submitted to the Maryland Department of Planning, in compliance with the State's Land Use Article annual reporting requirements for local jurisdictions.

This year's Annual Report also includes a report on the City's Adequate Public Facilities Ordinance (APFO) and Standards (APFS). The requirement for a biennial APFO report was introduced in 2011; however, the Commission provides this information each year, covering significant actions and restrictions that occurred with respect to the APFO and APFS during each reporting year.

Summary of 2024 Planning Commission Actions

The 2024 Annual Report describes actions taken by the Planning Commission from development applications to zoning text amendments. Several development applications were reviewed and approved by the Planning Commission in 2024 and are described and mapped in the report. The proposed developments associated with these applications were generally located along the city's commercial and transit corridors. This included significant residential or mixed-use projects on vacant and urban infill sites.

The anticipated work plan for the Planning Commission in 2025 is described as a conclusion to the Annual Report, highlighting the work staff expects the Planning Commission to accomplish by the end of the current calendar year.

Boards and Commissions Review

The Planning Commission endorsed the report at its meeting on May 28.

Next Steps

The final report will be submitted to the Maryland Department of Planning in accordance with the Land Use Article of the Annotated Code of Maryland.

CITY OF ROCKVILLE PLANNING COMMISSION

ANNUAL REPORT 2024

INTRODUCTION

The Annual Report of the Planning Commission is the document by which the Commission reviews its performance during the preceding year, with focus on its comprehensive planning, zoning and development activities during that period and the major planning projects and issues considered by the Commission. The Report is submitted to the Maryland Department of Planning in compliance with the State's Land Use Article annual reporting requirements for local jurisdictions.

This year's Annual Report also includes a report on the City's Adequate Public Facilities Ordinance (APFO) and Standards (APFS) but not a 5-year Mid-Cycle Planning Implementation and Development Process Report. The requirement for a biennial APFO report was introduced in 2011, yet the Commission provides this information each year, covering significant actions and restrictions that occurred with respect to the APFO and APFS during each reporting year.

The Smart Growth Goals, Measures and Indicators and Implementation of Planning Visions legislation (Senate Bill 276 and House Bill 295 [SB276/HB295]) requires jurisdictions that issue 50 or more building permits per year to report specified smart growth measures and indicators. The City of Rockville issued 324 single family residential building permits and 95 multifamily permits in 2024.

Each of the City's land use initiatives in 2024 worked towards implementing the State Visions for sustainable communities that protects the natural environment, directs growth, maintains and improves infrastructure and involves citizens in all stages of the process.

PLANNING IN ROCKVILLE

The City of Rockville had a population of 67,139 in 2020 (US Census Bureau, Decennial Census), making Rockville the fourth largest incorporated municipality in Maryland, behind the cities of Baltimore, Frederick and Gaithersburg. Rockville is about seven miles north of Washington, D.C. and is served by a transportation system that includes one interstate highway (I-270), two Metrorail stations within the City boundaries (Twinbrook and Rockville) and one just outside (Shady Grove), four state highways (Routes 355, 28, 586 and 189), a MARC and AMTRAK rail station (Rockville), in addition to local (RideOn) and regional (WMATA) bus service.

Rockville serves as the county seat for Montgomery County. The County Council and County Executive Offices are across the street from Rockville City Hall, as are the Circuit Court for Montgomery County and the District Court of Maryland.

The City of Rockville functions as an independent municipality, supplying many services for its citizens. The City controls its own planning and zoning authority, water and sewer services (serving much of the City, with WSSC serving some areas), police and public works departments, and recreation programs and

facilities. The Montgomery County government provides services to Rockville residents for public schools, fire protection, local circuit court, additional police protection, transportation, health and other services.

Municipal Authority

The authority to plan for the City's development and to enact and enforce laws relating to land planning and zoning is derived from the Land Use Article of the Annotated Code of Maryland.

Land use planning in Rockville is the responsibility of four official bodies: The Mayor and Council, Planning Commission, Board of Appeals, and Historic District Commission. The Mayor and Council adopts the Master Plan (Plan), enacts legislation to ensure compliance with the Plan, adopts amendments to the Zoning Ordinance and the Zoning Map, and funds capital improvements necessary to implement the Plan. The Board of Appeals considers applications for Special Exception uses, Variances from the Zoning Ordinance requirements and Appeals from administrative decisions related to planning and zoning.

The City's Zoning Ordinance, along with the Land Use Article, states the powers and duties of the Historic District Commission (HDC). They include identifying and recommending properties deemed eligible for historic designation, reviewing and acting on applications for Certificates of Approval for work within designated historic districts, and providing courtesy review to the Planning Commission and Mayor and Council for projects within or adjacent to historic districts.

Planning Commission

The Planning Commission is the only one of the four official bodies with direct land use authority that is involved in all phases of the planning process. It has specific duties, such as the Approving Authority for subdivisions and site plans, as well as advisory responsibilities to the Mayor and Council and Board of Appeals.

The Planning Commission is made up of seven members with staggered five-year terms. Members are nominated by the Mayor and approved by the full body of the Mayor and Council. The Commission elects a Chairperson from its membership each year. The Planning Commission typically meets twice a month, on the second and fourth Wednesdays starting at 7:00 p.m., in the Mayor and Council Chambers of Rockville City Hall. All meetings are televised and streamed live online and available online via "on-demand" the following day through the City's website. All agendas and supporting documentation are posted on the website one week before each meeting. The Commission conducts meetings in person and virtually via Webex.

Certain powers and duties of the Planning Commission are mandated by the Land Use Article. The Commission is required to prepare a plan for the physical development of the City (Plan, also called Comprehensive Plan), which is recommended to the Mayor and Council for approval, including with modifications¹. The Commission also makes recommendations concerning public structures, improvements and land acquisition necessary for the execution of the Plan; recommends district boundaries for comprehensive zone classification of land; approves all subdivision of land; and consults

¹ An amendment to Maryland's Land Use Article was enacted in 2015 which specifically allows the governing body to make modifications to recommended plans prior to adoption. The governing body may also approve, remand or disapprove the plan.

with and advises public officials, agencies, civic, educational, professional and other organizations and citizens with respect to the protection or execution of the Plan.

Certain duties of the Planning Commission stem from its function as the originator of the Plan. The Commission reviews and makes decisions on site plans for all proposed development, except for single-family or semi-detached residential development, for compliance with applicable regulations. For most other projects, the Commission approves a site plan, and subdivision plat if necessary, as prerequisites to the issuance of a Building Permit for construction. Applications filed pursuant to Mandatory Referral by public entities are also reviewed by the Commission.

Applications for Project Plan applications, Map Amendments, Text Amendments, Annexations, and other City policy statements are forwarded to the Mayor and Council with the Commission's recommendations. Similarly, the Commission reviews all applications for special exception uses for compliance with the Comprehensive Plan and makes appropriate recommendations to the Board of Appeals. The Commission reviews sectional map amendments to designate historic districts and makes recommendations to the Mayor and Council for consistency with the Master Plan. Finally, the Commission must file an Annual Report on its activities with the Mayor and Council and the Maryland Secretary of Planning. This report fulfills that requirement.

PLANNING COMMISSION ACTIVITIES IN 2024

Zoning Ordinance and Map Changes

The City adopted a new Zoning Ordinance on December 15, 2008 with an effective date of March 16, 2009. A new Development Review Procedures Manual was published in July 2009, followed by further updates in 2011, based on recommendations by a city Communications Task Force in 2010, and in 2013. The city has since adopted text and map amendments to clarify issues and to ensure the Zoning Ordinance addresses current planning and zoning issues facing the City.

In 2024, the Planning Commission reviewed two applications for Zoning Map Amendments (MAPs), one of which was a historic district map amendment and the other was for an application of a floating zone to fulfill a Comprehensive Plan recommendation. The Commission reviewed three Zoning Text Amendments: to regulate tobacco and smoke shops; to provide for a method to amend conservation districts; and to amend the existing Lincoln Park Conservation District.

Development Review Activities

Changes in development patterns in the City of Rockville, whether originating in the public or private sector, require the approval of one or more types of development applications. A review of all such applications acted on in 2024 provides a snapshot of future changes in the use of land within the city for that year. The approved development changes are consistent with all components of the adopted Comprehensive Master Plan, neighborhood plans, Zoning Ordinance regulations, and related City requirements.

Several subdivision plats were approved by the Rockville Planning Commission in 2024. These included record plats necessary to create lots for previously-approved development projects. Site Plan approvals

by the Planning Commission in 2024 included a residential community with 36 two-over-two units on a former church property near the Twinbrook Metro station, a conversion of a former office building to multifamily units also near the Twinbrook Metro station, and a 291-unit multifamily redevelopment of office buildings in the Town Center.

A list of all the Planning Commission actions in 2024, including those mentioned above, appears on pages 9-11, with a map on page 12 locating each property that was the subject of an action.

Comprehensive Plan Development and Implementation

The City of Rockville Comprehensive Master Plan (CMP), known as Rockville 2040, was adopted in August 2021. In 2025, two amendments to the Comprehensive Plan were adopted by the Mayor and Council: the Town Center Master Plan and an amendment to the Lincoln Park Design Guidelines. When combined with the Pedestrian Master Plan adopted into the Comprehensive Plan in 2023, there are now a total of three amendments to the CMP.

Pedestrian Master Plan

The Pedestrian Master Plan, adopted into the Comprehensive Plan on Oct. 30, 2023, amends, clarifies, and in many cases provides more details regarding the facility and policy planning within the city's Comprehensive Plan, Rockville 2040, and helps implement the city's Transportation Vision. The Transportation Vision states, "Rockville's transportation system will provide residents, businesses, employees, and visitors with multiple options for moving about the city through a variety of modes and paths while ensuring access for persons of all abilities and mobilities...Rockville will continue to transition to a more walkable community and contribute to regional efforts to create safe, efficient and environmentally sustainable mobility." The plan provides an overview of the pedestrian network and identifies policy and infrastructure improvements to address unique issues faced by people walking and rolling.

Town Center Master Plan

The Planning Commission reviewed and approved a new Town Center Master Plan in 2024, replacing the previous version adopted in 2001. The Mayor and Council subsequently adopted the Rockville Town Center Master Plan on January 27, 2025. The resounding themes found throughout this document are to create a flexible regulatory environment that allows Town Center to thrive by enabling development and allowing the market to dictate the "highest and best" land uses over the next two decades. Additionally, the Plan prioritizes the development of additional residential housing units, with a particular emphasis on affordable and attainable housing units. The final theme throughout the document is to turn Town Center into a vibrant local and regional destination by creating an environment where people can live, work, and play for years to come. Most of the zoning and land use recommendations within the Town Center Master Plan will be implemented through the Zoning Ordinance Rewrite and Comprehensive Map Amendment project currently underway.

Lincoln Park Conservation District Amendments

In 2022, the City of Rockville, in partnership with Lincoln Park residents and a design consultant, began working with community members to help review standards and develop draft design guidelines for new construction and additions to single-unit detached housing properties in the neighborhood. These efforts were made primarily to address issues with existing building standards in the Lincoln Park Neighborhood

Conservation District. The Planning Commission reviewed the proposed amendments to the *Lincoln Park Conservation District Plan* and the proposed design guidelines in 2024.

After extensive review, the Mayor and Council decided not to proceed with new design guidelines for the neighborhood. Instead, on January 27, 2025, the Mayor and Council adopted ordinances to amend the Lincoln Park Conservation District Plan and overlay zone to focus on needed revisions to existing standards relative to building footprint and height requirements.

DEVELOPMENT ACTIVITY IN 2024

Several major residential developments continued construction in 2024, including major developments near King Farm and Potomac Woods. In addition, a mixed use building with 460 multifamily units and a grocery store at the Twinbrook Metro station completed construction, allowing residential occupancy in 2024.

DEVELOPMENT CAPACITY ANALYSIS

The City of Rockville participates in the Metropolitan Washington Council of Governments (MWCoG) growth forecasting process and has used the projections derived through that process in lieu of conducting a separate Development Capacity Analysis. All of the projections are based upon the current municipal boundaries and are therefore all located within a Priority Funding Area. The City participated in the MWCoG Round 10.1 process in 2024. Round 10.1 projected the following for the year 2050:

MWCoG Round 10.1 Projections (2024) – City of Rockville			
	2020	2050	Percent Change
Population	67,228	90,396	34%
Households	26,869	37,833	41%
Jobs	76,424	94,463	24%

ADEQUATE PUBLIC FACILITIES ORDINANCE (APFO)

The Mayor and Council have adopted an Adequate Public Facilities Ordinance (APFO) and Adequate Public Facilities Standards (APFS) to establish minimum standards for public facilities and services such as transportation (roads, transit, pedestrian facilities, bicycle facilities), schools, water, and sewer service. New developments are required to perform studies to evaluate their impact on these public facilities and mitigate unacceptable impacts prior to approval. The City's APFO can be found in Article 20 of the Rockville Zoning Ordinance.

Comprehensive Transportation Review

The transportation test of the City's APFO is the Comprehensive Transportation Review (CTR). The CTR evaluates the overall transportation system from a multimodal perspective. Transportation goals from the Master Plan form the basis for the methodology, standards and impact thresholds outlined in the CTR

requirements. Each development application that generates more than 30 vehicle trips is required to include a Transportation Report that analyzes all components, including vehicle trip generation and distribution, intersection capacity analysis, and on-site transportation analysis and proposed mitigation of impacts on roads, bicycle and pedestrian facilities and transit systems. Transportation staff have initiated a process to update the standards of the CTR, which may be modified on the same timeline as the updated Zoning Ordinance for the City.

School Capacity Standards

The City's school adequacy test, the point at which a school attendance area goes into moratorium for new residential development, is a combination of exceeding the program capacity by 120% and exceeding a specified seat count. The seat deficit is 110 seats at the elementary level and 180 seats at the middle school level.

Student generation rates were updated by Montgomery County semi-annually. The generation rates are more accurate since the location and housing type of virtually every MCPS student could be identified.

No school that serves students living in the City is in moratorium. Capacity at the high school level in the Walter Johnson HS cluster is over capacity, with the projected capacity over 120%; however, the project to reopen the former Charles W. Woodward HS within the City's test period relieves that capacity deficit.

Similarly, the Richard Montgomery HS cluster continues to exceed capacity limits at the high school level. With the capacity from the new high school to be built at the Crown development in Gaithersburg available in 2027, the capacity deficit is relieved.

Water and Sewer Standards

Water and sewer service is delivered to Rockville by two providers: the City of Rockville and the Washington Suburban Sanitary Commission (WSSC). This portion of the report provides information for properties that receive water and sewer service from the City of Rockville.

Rockville withdraws water from the Potomac River, treats the water and delivers it to the Rockville city limits for customer consumption. There are three sewersheds in Rockville: Watts Branch, Cabin John and Rock Creek. Rockville collects wastewater from customers using Rockville's sewer pipes and discharges the wastewater into WSSC sewer pipes, which in turn discharge into District of Columbia Water and Sewer Authority (DC Water) sewer pipes for treatment at DC Water's Blue Plains Advanced Wastewater Treatment Facility (Blue Plains).

Calendar Year 2024 Restrictions

No restrictions were identified for projects approved during calendar year 2024:

- Capacity to treat and supply water from the Rockville Water Treatment Plant: None
- Capacity of the water transmission system to provide adequate fire flow: None
- Capacity to treat wastewater at Blue Plains: None
- Capacity of the sanitary sewer collection system to transmit wastewater flow: None

Cumulative Restrictions

The following is a cumulative list of restrictions, which have not yet been mitigated, identified since Rockville adopted an APFO and began tracking water and sewer deficiencies. These restrictions may place limits on development if they are not mitigated through capacity upgrades.

The Water and Wastewater deficiencies are shown in the map exhibit found on the following page. The exhibit also identifies when the deficiencies are expected to be mitigated based on the adopted fiscal year 2024 Capital Improvements Program (CIP).

Water System

There are currently no identified water system deficiencies; however, fire flow capacity is evaluated for each proposed development so future development may require the mitigation of a water system deficiency that has not been identified.

Wastewater System

There are six (6) deficient areas that have flow restrictions. These restrictions are a result of inadequate capacity of the existing sewer pipes to convey peak wastewater flow.

There are two primary means to resolve the sewer capacity restrictions in Rockville: (1) capacity upgrades through Rockville's Capital Improvement Program and (2) capacity upgrades by developers through permits issued by DPW. Capacity upgrades typically are accomplished by increasing the diameter of the sewer pipe, however alternate methods are considered when feasible. Rockville's FY2024 Capital Improvement Program, adopted by the Mayor and Council in May of 2023, includes construction funding to resolve two (2) deficient areas: Atlantic Avenue and Glenora. The Atlantic Avenue deficiency is scheduled to be resolved in FY2028 and the Glenora deficiency is scheduled to be resolved in FY2029. The Lorraine Drive sewer deficiency area is programmed to be mitigated by a capital improvement project in FY2030.

Cumulative development approvals through 2024 require mitigating the Congressional, Halpine and Twinbrook Metro deficiency areas in the Rock Creek sewer shed. The mitigation of Congressional and Halpine deficiency areas was completed by the developer with the implementation of Phase 1 of the Twinbrook Quarter development. The mitigation of the Twinbrook Metro deficiency area is subject to the terms of a Development Rights and Responsibilities Agreement (DRRA) and a pending implementation agreement between the City and the Twinbrook Quarter developer. The DRRA specifies that the mitigation of the Twinbrook Metro deficiency area will be implemented at the cost of the developer within ten (10) years of Twinbrook Quarter's Project Plan approval, or at ten (10) years, the developer must either fund the mitigation of the deficiency or forfeit the remaining reserved capacity of the Project Plan.

Water and Wastewater System Restrictions

Note: System restrictions are included for the Rockville Water and Sewer Service area only, and does not include areas served by the Washington Suburban Sanitary Commission (WSSC).

PLANNING COMMISSION WORK PROGRAM FOR 2025

The Planning Commission's work plan for 2025 will consist primarily of considering development review applications, including site plans and record plats, and providing recommendations on zoning text and map amendments, project plans and special exceptions.

The Mayor and Council have approved funding for a consultant to assist in a comprehensive rewrite of the City's Zoning Ordinance that is intended to implement the recommendations of the Comprehensive Plan. The Commission will have a major role in that effort and expects to hold work sessions on the project as it proceeds forward.

The Commission continues to take public participation in all planning efforts very seriously. This has been reflected in the public participation in recent master planning initiatives.

Staff for the Commission also monitors Montgomery County plans adjacent to Rockville and reports the status of such items to the Commission, which maintains an active interest in such projects. In addition, staff monitors other County projects that will impact Rockville, such as the Bus Rapid Transit (BRT) planned for the Rockville Pike (MD 355) and Veirs Mill Road (MD 586) corridors as well as projects at Montgomery College.

Zoning Text Amendment TXT2025-00270, to Regulate Establishments that Include the Retail Sale of Cannabis for Personal Use; Mayor and Council of Rockville, Applicants

Department

CPDS - Zoning Review & Other

Recommendation

Staff recommends that the Mayor and Council conduct the public hearing.

Change in Law or Policy

The proposed amendment would add “cannabis dispensary” as a conditional use in the zones where retail use is allowed. Currently, the Zoning Ordinance considers the retail sale of cannabis to be the sale of a consumable good to be used in the home, given that it is not a defined use in the ordinance. See Attachment 1 above – Draft Ordinance.

Discussion

The intent of the draft ordinance for Zoning Text Amendment TXT2025-00270 is to align the city’s zoning regulations for cannabis dispensaries with state law regarding the sale of cannabis for recreational or personal use.

The proposed definition for a “cannabis dispensary” is “any retail establishment that is licensed by the state of Maryland to sell cannabis to patients or consumers.” In addition, the ZTA if adopted would add “cannabis dispensary” as a conditional use where retail use is permitted generally. This use would be a conditional use in the zones where retail use is permitted, which are the mixed-use (MXTD, MXCD, MXE, MXCT, MXB, MXT, and MXC) and Light Industrial (I-L) zones.

The use would be subject to the condition that the use complies with the requirements of State law and regulations, including, but not limited to, any distance requirements in § 36-410 of the

Alcoholic Beverages and Cannabis Article of the Maryland Annotated Code, as may be amended.

The distance requirements in the state code are that standard dispensaries may not be located within 500 feet of the following pre-existing sensitive uses: primary and secondary schools, child care centers, playgrounds, recreation centers, libraries, places of worship, and public parks. In addition, standard dispensaries may not be located within 1,000 feet of another dispensary.

While State code affords local jurisdictions some flexibility in enacting separation requirements for cannabis dispensaries, it also forbids jurisdictions from adopting requirements for dispensaries that are more restrictive than the requirements for licensed alcoholic beverage retailers (see Attachment 2 above – MCA Zoning Update 2024). The city does not have separation requirements for alcoholic beverage retailers, so the city is limited in enacting more stringent requirements on cannabis retailers without also imposing such requirements on alcoholic beverage retailers.

The draft ordinance does not include a prohibition on establishments that allow onsite consumption of cannabis, which is allowed by the 2025 cannabis reform bill, and which was removed from the draft by the Mayor and Council on May 19.

Mayor and Council History

At the May 19, 2025 meeting, the Mayor and Council authorized the filing of this ZTA which is consistent with the state regulations.

Public Notification and Engagement

The standard notification for public hearings occurred.

Boards and Commissions Review

The Planning Commission reviewed the application at its meeting on May 28 and recommended approval by unanimous vote.

Next Steps

If the Mayor and Council wish to proceed with the adoption of the draft zoning text amendment, the process is outlined on the next agenda item.

Zoning Update

HB0805 passed the Maryland General Assembly with an effective date of June 1, 2024. This bill clarifies statutory requirements for where new cannabis businesses can locate, and provides more flexibility to local governments than what was previously authorized under the Cannabis Reform Act of 2023. HB0805 provides clarity to both new businesses and county and municipal officials. The Maryland Cannabis Administration (MCA) is providing this document in response to questions received from local governments and to help inform county and municipal officials on their scope of authority regarding the siting and operation of cannabis businesses.

Note: Items underlined reflect new provisions passed this year by the Maryland General Assembly.

Standard Dispensaries:

Standard dispensaries have physical storefronts and are authorized to sell cannabis or cannabis products to patients or consumers. The MCA limited the number of standard dispensaries by county. The number of awards for each county can be found on the table in *Appendix A*.

Standard Dispensaries *cannot* locate:

- Within 500 feet of any of these pre-existing sensitive locations:
 - Primary school
 - Secondary school
 - Child care center
 - Playground
 - Recreation Center
 - Library
 - Place of worship
 - Public Park
- Within 1,000 feet of another dispensary.

Local jurisdictions *may*:

- Pass an ordinance to increase the distance between dispensaries to a half mile.
- Pass an ordinance to establish a 100 foot distance requirement between dispensaries and areas zoned for residential use only.
 - Local jurisdictions may also apply distance limitations used for licensed alcoholic beverage retailers from an area zoned exclusively for residential use.
- Reduce the required distance between a licensed dispensary and any sensitive locations (listed above).
- Reduce the required distance between dispensaries to less than 1,000 feet.
- Consider and enforce the distance restrictions (listed above) when making zoning decisions for licensed dispensaries.
- Prohibit unlicensed retailers from siting in the jurisdiction.

Zoning Update

Local jurisdictions *may not*:

- Adopt an ordinance establishing zoning or operational requirements for a licensed dispensary that are more restrictive than the requirements for licensed alcoholic beverage retailers in their jurisdiction.
- Establish zoning or other requirements that unduly burden the cannabis licensee.
- Impose licensing, operating, or other fees or requirements on a cannabis licensee that are disproportionately greater or more burdensome than those imposed on other businesses with a similar impact on the area where the cannabis licensee is located.
- Prohibit transportation through or deliveries within the political subdivision by cannabis businesses located in other political subdivisions.
- Prohibit the adult-use retail of cannabis by licensees within the jurisdiction.

Growers:

Growers are licensed entities authorized to cultivate cannabis. Cannabis cultivation may be done either through field cultivation (outdoors), indoor cultivation, or a combination of field and indoor cultivation. Regardless of cultivation method, growers are subject to strict security regulations, including fencing, lighting and surveillance. MCA has issued grower licenses in two categories: Standard and Micro. The award for each category has been made by region. A map of the MCA's regions in the State can be found in *Appendix B*. Awardees may locate in any jurisdiction within the region, subject to local approval.

Local jurisdictions *may not*:

- Establish zoning requirements for an exclusively field-cultivated grower that are more restrictive than zoning requirements that existed for registered hemp farms on June 30th, 2023.¹
- Prohibit outdoor cannabis cultivation on a premise that was properly zoned for outdoor cultivation on or before June 30, 2023.

Other Provisions:

In 2024, the General Assembly added provisions to allow local communities to protest the renewal of a cannabis license under certain circumstances. A protest may be filed under one of several bases specified in the law, and if the protest meets the minimum requirements established in law the MCA must hold a hearing to determine if the license should be renewed. Protests may only be filed by residents or commercial tenants located within 1,000 feet of the licensed premises for the following reasons:

- A violation of the Alcoholic Beverages and Cannabis title;
- A violation of civil or criminal law;
- Conduct by the licensee that creates or maintains conditions that allow other individuals to act in a manner that disturbs the peace.

Local jurisdictions maintain the authority to prohibit on-site consumption establishments, or restrict the types of consumption authorized in the jurisdiction. The MCA has not issued any On-Site Consumption licenses to date.

¹ Only applicable in areas zoned for agriculture.

Consider Actions Related to Reorganization and Revisions to Chapter 15 – Personnel of City Code

Department

Human Resources

Recommendation

Staff recommends that the Mayor and Council consider and adopt the following Ordinances and Resolutions related to the reorganization and proposed changes to Chapter 15 (Personnel) of the City Code:

1. Adopt an Ordinance to create the Department of Procurement and the Communications and Community Engagement Department.
2. Adopt an Ordinance that amends certain provisions of Chapter 15-Personnel of the City Code.
3. Adopt a Resolution that establishes and updates certain Classified Civil Service Positions, as Non-Merit Civil Service positions.
4. Adopt a Resolution that amends the July 1, 2024, Amended and Restated Pension Plan document.

Change in Law or Policy

If adopted, the ordinance and resolution will result in changes to the respective city code chapters.

Discussion

Ordinance #1: Creating Departments

As part of the FY2026 budget deliberations, the City Manager recommended, and the Mayor and Council authorized the creation of two new departments – the Department of Procurement and the Communications and Community Engagement Department. The two departments were previously divisions within the City Manager’s Office. To formally effectuate the creation of the departments, an ordinance is needed. Pursuant to the Article IV, Section b (18) of the City Charter, the Mayor and Council has authority to create new department(s) by passage of an ordinance.

Attached to this staff report is the draft ordinance (Attachment 1) that creates the two departments for your consideration and adoption.

Resolution #1: Establishing and modifying list of Classified Civil Service Positions placed in the Non-Merit Civil Service

Pursuant to Section 15-2(4) of the City Code, the Mayor and Council shall provide by resolution the positions that are placed in the Non-Merit Civil Service. The creation of the two departments required a change to the list of Classified Civil Service Positions that are in the Non-Merit Civil Service to include the two director positions. Resolution No.12-89, passed on May 22, 1989, is the most recent resolution that identifies the positions that are in the Non-Merit Civil Service. These positions include: all department heads; the administrative assistant to the city manager; the assistant city manager; and part-time, temporary and unpaid offices and positions, except for permanent part-time classified employees.

Upon review of Resolution No.12-89, not only were revisions needed to remove positions that are nonexistent and add the two new department director positions but also include the positions of the Deputy City Manager, Deputy City Attorney; except for permanent part-time classified employees.

Attached to this staff report is the draft Resolution (Attachment 2) that establishes and modifies the list of at-will Classified Civil Service positions place in the city of Rockville Non-Merit Civil Service for your consideration and adoption.

Resolution #2: Amending Pension Plan Document

Concurrent with the actions above, amendments to the July 1, 2024, Amended and Restated City of Rockville Pension Plan document, are needed. The amendments include: the addition of a definition for Non-Merit Civil Service Employees (Article I, Section 1.3), clarification that supplemental contributions to the Thrift Plan are authorized for Non-Merit Civil Service Employees without reference to contract provisions (Article II, Section 2.2 and Article XVI, Section 16.4), and an appendix addition to recognize the retiree cost of living adjustment that was provided in January 2025 (Appendix A). The last time the Mayor and Council approved changes to the Pension Plan was on May 6, 2024, when DROP was added as a benefit for the Police officers.

To effectuate these changes, staff prepared the attached draft resolution (Attachment #3) for your consideration and adoption.

Ordinance #2: Revisions for Chapter 15-Personnel

City staff reviews the city code regularly and as needed brings forth proposal for change. The impetus for a proposed change could be the need to provide clarity, alignment with best

practices and changes in state laws or Mayor and Council directives or policy, alignment with City Charter among others. As part of the reorganization and recent personnel actions, staff identified sections of Chapter 15 (Personnel) of the city code that require revisions. The proposed revisions are meant to provide clarity, align our practices with the City Charter, and best practices. These changes include:

1. Amending Chapter 15. Sec. 15-2 to clarify and provide for the administrative approval of personnel policies and procedures. This amendment will ensure that discrepancies between General Orders and personnel policies can be addressed quickly, and changes to personnel related policies and procedures are responsive in meeting employee needs.
2. Amending Chapter 15. Sec. 15-2 and Sec 15-3 to make it clear that the Mayor and Council approve the employment contracts of the appointed officials; and the appointed officials approved the employment agreement of their respective Non-Merit Civil service employees.
3. Amending Chapter 15. Sec. 15-63 and Sec. 15-64 to provide more time for when the Personnel Appeals Board may schedule a hearing and clarifying that the Personnel Appeals Board findings be limited to whether an employee violated any law, City policy, rule, regulation or directive.

To effectuate the proposed amendments to Chapter 15 (Personnel) of the City Code, staff prepared the attached draft ordinance (Attachment 4) for your consideration and adoption.

Mayor and Council History

This is the first time this item is being presented.

Fiscal Impact

The FY2026 budget accounted for the reorganization. The newly created departments will have their budgets with their respective cost centers.

Next Steps

Following the approval of the ordinances and resolutions, staff will proceed with implementation.

MAYOR AND COUNCIL Meeting Date: June 9, 2025
Agenda Item Type: DISCUSSION AND POSSIBLE APPROVAL
Department: CPDS - ZONING REVIEW & OTHER
Responsible Staff: JIM WASILAK

Subject

Introduction and Possible Adoption of Zoning Text Amendment TXT2025-00270, to Regulate Establishments that Include the Retail Sale of Cannabis for Personal Use; Mayor and Council of Rockville, Applicants

Department

CPDS - Zoning Review & Other

Recommendation

Staff recommend that the Mayor and Council adopt the draft ordinance at its June 9 meeting. To adopt the ordinance, a council member must introduce the ordinance. A motion to waive the layover period must then be approved by six or more members of the Council, after which the vote to adopt the ordinance may take place.

Change in Law or Policy

The proposed amendment would add “cannabis dispensary” as a conditional use in the zones where retail use is allowed. Currently, the Zoning Ordinance considers the retail sale of cannabis to be the sale of a consumable good to be used in the home, given that it is not a defined use in the ordinance.

Discussion

The intent of the draft ordinance for Zoning Text Amendment TXT2025-00270 is to align the city’s zoning regulations for cannabis dispensaries with state law regarding the sale of cannabis for recreational or personal use (see Attachment 1 - Draft Cannabis ZTA Ordinance 052725).

The proposed definition for a “cannabis dispensary” is “any retail establishment that is licensed by the state of Maryland to sell cannabis to patients or consumers.” In addition, the ZTA if adopted would add “cannabis dispensary” as a conditional use where retail use is permitted generally. This use would be a conditional use in the zones where retail use is permitted, which are the mixed-use (MXTD, MXCD, MXE, MXCT, MXB, MXT, and MXC) and Light Industrial (I-L) zones.

The use would be subject to the condition that the use complies with the requirements of State law and regulations, including, but not limited to, any distance requirements in § 36-410 of the Alcoholic Beverages and Cannabis Article of the Maryland Annotated Code, as may be amended.

The distance requirements in the state code are that standard dispensaries may not be located within 500 feet of the following pre-existing sensitive uses: primary and secondary schools, child care centers, playgrounds, recreation centers, libraries, places of worship, and public parks. In addition, standard dispensaries may not be located within 1,000 feet of another dispensary.

While State code affords local jurisdictions some flexibility in enacting separation requirements for cannabis dispensaries, it also forbids jurisdictions from adopting requirements for dispensaries that are more restrictive than the requirements for licensed alcoholic beverage retailers. The city does not have separation requirements for alcoholic beverage retailers, so the city is limited in enacting more stringent requirements on cannabis retailers without also imposing such requirements on alcoholic beverage retailers.

The draft ordinance does not include a prohibition on establishments that allow onsite consumption of cannabis, which is allowed by the 2025 cannabis reform bill, and which was removed from the draft by the Mayor and Council on May 19.

Impact Statements

Equity

The intent of the state legislation is to provide greater opportunities, particularly to prospective licensees who were previously restricted by past cannabis regulations. The ZTA does not impose a greater distance requirement between dispensaries that retail cannabis products for personal use.

Environment

There will be no known environmental impact from the adoption of the ZTA.

Economy

The state legislation was crafted so that communities that were overly burdened in the past may benefit economically from the legislation that allows for cannabis dispensaries that retail cannabis products for personal use. If the Mayor and Council enact the baseline separation distances that mirror state law, those opportunities will be available in Rockville as intended by the legislation.

Mayor and Council History

The Mayor and Council authorized the filing of Zoning Text Amendment TXT2025-00270 on May 19, 2025.

Public Notification and Engagement

Public notification followed the city's accepted practice.

Boards and Commissions Review

The Planning Commission reviewed the proposed ZTA on May 28, 2025, and recommended approval by unanimous vote.

Next Steps

Adoption will conclude the review process.

Suggested motions:

“I introduce the ordinance for Zoning Text Amendment TXT2025-00270.”

Once introduced, “I move to waive the layover period in order to adopt the ordinance”

If six or more have voted affirmatively to waive the layover period, “I move to adopt the ordinance to approve Zoning Text Amendment TXT2025-00270.”

MAYOR AND COUNCIL Meeting Date: June 9, 2025

Agenda Item Type: ADOPTION

Department: CITY MANAGER'S OFFICE (CMO)

Responsible Staff: LINDA MORAN

Subject

Consider Approval of 2026 Proposed Maryland Municipal League Legislative Action Requests

Department

City Manager's Office (CMO)

Recommendation

Discuss the recommended 2026 MML Legislative Action Requests and approve three for submittal to the Maryland Municipal League.

Discussion

Consideration of proposed Maryland Municipal League (MML) Legislative Action Requests (LAR) is the first step in the Mayor and Council's development of the City of Rockville's comprehensive 2026 State legislative program. MML has invited each member municipality to submit as many as three LARs for consideration to be included in the League's priority program. MML members are required to have their elected officials approve the LARs by July 1, 2025.

LARs are issues that are resolved through State legislation and have a broad impact on the MML membership. The League does not typically advocate for issues that impact a small number of municipalities and does not engage with State legislation introduced by local Delegations. As the lead entity with whom decision makers in Annapolis engage on State legislation affecting municipalities, MML focuses on high-profile issues with significant impact on its membership. The Legislative Committee meets in the summer and selects up to four priority program issues to recommend to the Board of Directors for approval.

Rockville-specific State legislative issues are discussed and approved by the Mayor and Council in the fall, after the MML priority program is adopted. Rockville's approved LARs are incorporated into the City's comprehensive State legislative priority program. In recent years, advocating in support of educational needs across the spectrum, including capital and operating funding, legislation in support of the City's vision zero and pedestrian master plan, climate action plan goals, and legislation supporting renters are examples of items that are Rockville-specific that have been included in Rockville's State legislative program. In recent years, the Mayor and

Council's comprehensive State legislative program has included MML-adopted priorities and Rockville-specific initiatives.

MML's LAR process includes a limit on repeat requests. In a four-year term (Governor and General Assembly), MML will not accept an LAR that is similar to or substantially similar to an item that has not been selected by the Legislative Committee twice in the term. The City's previous LAR for legislation would expand access to the State property tax credit to low- and medium-income homeowners, including senior residents, and individuals with disabilities, providing relief from inflationary pressures driving cost-of-living increases, was not selected by the MML Legislative Committee in 2024 and 2025. Therefore, per MML's requirements, Rockville is precluded from submitting an LAR on this issue for the 2026 Session. Rockville can continue to advocate for this priority as part of the City's State legislative priorities program. The recommended 2026 LARs are based on high-priority issues of interest to the Mayor and Council, and legislation the body supported in the 2025 Session. Staff has included four potential LARs for consideration. The Mayor and Council can discuss and select the three LARs that are of most importance to the City.

Proposed 2026 Legislative Action Requests

1. Admissions and Amusement Tax Legislation

This issue has been an MML and a Rockville priority in the 2024 and 2025 Sessions. SB 324 – Admissions and Amusement Tax – Food and Beverage was provided with a favorable report by the Senate Budget and Taxation Committee in 2025. However, the legislation failed. The progress made in the 2025 Session indicates increasing awareness in the General Assembly of the need for expanded municipal revenue sources. MML is interested in continued advocacy in support of this legislation.

The legislation would expand the ability of counties and municipalities to raise resources beyond the property tax by expanding the Admissions and Amusement Tax to capture revenue from food and beverage for all on-site consumption, which includes restaurants. The bill provides enabling authority for local governments to charge up to 3% for on-site food and beverage purchases at establishments that have facilities for the consumption of food and beverages on the premises.

The expansion of the Admissions and Amusement Tax would require individuals that visit establishments in municipalities and counties and benefit from local government services to pay the tax. If this legislation were to pass, it would relieve pressures on the property tax, which is solely funded by property owners in local communities.

2. Statewide Stop Sign Monitoring Systems Legislation

In the 2025 Session, the Montgomery County Delegation sponsored a local Bill (4-25) which was approved by the Montgomery County Delegation and was introduced as HB 1032. The City supported this bill. While HB 1032 passed the House and Senate, it did not receive concurrence from the chamber of origin (House) and failed.

The amended bill authorized the use of stop sign monitoring technology in Montgomery County and Baltimore City in school zones under a pilot program existing in Prince George's County. Those in violation would be subject to a \$40 fine. By December 1, 2027, jurisdictions would be required to provide a report to the Governor and General Assembly and include information relating to program data, cost, and implementation. The bill would have taken effect on July 1, 2025, and terminated on June 30, 2029.

It is recommended that the LAR broaden the application of the bill to apply across the State, which would meet a key criterion for MML to consider the LAR. This legislation aligns with the Mayor and Council's Vision Zero priority.

3. Preserve and Protect Municipal Highway User Revenues and Police Aid

This Legislative Action Request seeks to preserve full funding for Municipal Highway User Revenue and Police Aid funding.

Highway User Revenues (HUR) are the share of the gas tax and vehicle titling tax dedicated to the construction and maintenance of local roadways and bridges. All the revenues are levied by the State, as there are no local gas taxes in Maryland. Since local governments maintain most roads in Maryland, the State has historically shared a portion of these revenues through a formula with County and municipal governments. Municipal Highway User Revenues help to fund municipal transportation projects, including street and sidewalk maintenance, and pedestrian safety initiatives. In the 2025 Session, FY26 Municipal HURs were preserved. Rockville's FY26 Highway User Revenue allocation is \$4.7 million.

The State Aid for Police Protection Fund is a formula-driven funding program used to supplement resources for police protection in counties and municipalities. The State funds provide additional revenue to support the operational costs of local and county police agencies by providing additional funds for salaries, equipment, and other resources. Rockville's FY26 Police aid allocation from the State is \$1.1 million.

While the General Assembly's actions in the 2025 Session addressed a projected \$2.8 billion gap for FY26, the outlook in future years is negative. According to the Maryland Department of Legislative Services, the FY 27 structural gap is \$155 million, \$1.9 billion in FY28, \$2.3 billion in FY29, and \$3.0 billion in FY30. Continued uncertainty related to the Federal transition, budget, and tax measures could result in additional negative impacts on the State. It will be critical in the 2026 Session and beyond to preserve these State resources that help the City to maintain its transportation infrastructure and provide Police protection for Rockville residents. This LAR aligns with the Mayor and Council's public safety and stewardship of infrastructure priorities.

4. Regional Transportation Authorities Legislation

In the 2025 Session, Rockville supported HB 1073/SB 881 - Regional Transportation Authorities - Transportation, sponsored by Delegate Spiegel. The legislation establishes regional transportation authorities in three regions: Baltimore, Capital, and Southern

Maryland for the purpose of implementing regional transportation plans. A transportation surcharge is imposed in those regions on retail sales, use of a taxable service, hotel lodging, and transfer of real property.

Thirty percent of revenue generated in a municipality is distributed to that municipality (same for counties), and 70 percent is distributed to the State. Revenue may only be used for transportation purposes. This legislation is based on Virginia's model and offers a solution to the State's waning transportation trust fund revenues resulting from increased use of high-efficiency, hybrid, and electric vehicles. There was no further action after the bills were heard, and the legislation failed. This LAR aligns with the Mayor and Council's Vision Zero priority as it would generate additional funding for transportation infrastructure.

Impact Statements

Equity – The statewide Stop sign monitoring LAR supports equity in that the legislation would increase safety and support communities that do not have access to a vehicle and walk, roll, and use public transportation. The Admission and Amusement Tax expansion LAR, Preservation of Municipal Highway User Revenue and Police Aid, and the Regional Transportation LARS also support equity as they would generate or preserve resources used to invest in public infrastructure used by communities who walk, bike, roll, and use public transportation.

Environment – The LAR for the Preservation of Municipal Highway Revenues and Police Aid and the LAR for Regional Transportation Authority legislation supports additional investment in public infrastructure designed to facilitate and enhance safety for walking, rolling and use of transit which supports the environment by reducing greenhouse gas emissions and aligns with Rockville's Climate Action Plan goals.

Economy – The Admissions and Amusement LAR and the Regional Transportation Authority LAR would generate additional municipal revenues, which could stimulate Rockville's investment in public infrastructure and other critical city services. Quality public infrastructure may attract private development in the City, which would generate additional economic activity in Rockville.

Mayor and Council History

The Mayor and Council annually discuss and approve LAR items to forward to MML for consideration in the League's priority program for the next General Assembly Session.

Next Steps

Staff will forward the approved LARs to MML for consideration by the League's Legislative Committee.

Staff will update the Mayor and Council on the priority issues that are approved for the 2026 MML priority program.

The Mayor and Council will consider and approve Rockville-specific priorities in its discussion of the City's comprehensive 2026 State legislative priorities program in the early fall of 2025 (TBD), after MML's priorities are adopted.
