College Gardens ES  
Mrs. Asjid

## **If I were a Mayor**

If I was mayor I would make my city, Rockville, a better place for the future by doing many things. I want to solve as many problems as I possibly can. One of those problems is I want to try to stop pollution. Pollution is still a big problem in Rockville. Part of stopping pollution is adding more trash cans to our parks. I also want to increase the security in our neighborhoods. Part of that would be to hire more police officers. We can never have enough. We only have 67. We also need to have friendships, like how humans need other humans, Rockville should partner with other businesses. That might also solve another big issue, unemployment. Which might solve another big issue, homelessness. I would also like to create a better education system. And how does that happen? Give teachers more money and housing. Also give schools more money that way they can buy better lunches and school supplies. That is what I would do to make Rockville a better place for the future if I was mayor.

If I was mayor I would make sure that people felt like they were part of the community by having public park trash pick ups. I would also build more community dog parks because people need to go outside more often. Also several people in Rockville own dogs. I would also like to honor seniors because they are important to our community. I also know that a lot of people feel scared right now, so I would like to do a few things. One of those things is that I would like to give public speeches to re-ensure safety. To help with that, I would have public events. I will also go door to door asking people what they think they can change. I also know that bullying is a HUGE issue right now. Some kids even commit suicide because of bullying. Because of that, I want to try to stop bullying at least in Rockville as soon as possible. I also know that many people don't have enough food or water right now so another thing that I would do is that I would make sure everyone had enough food and water. I also know that some parents don't have enough money to buy Christmas presents for their kids. I would make sure that there was a toy drive every year for those kids. The last thing that I would do is make sure kids have access to as many sports programs/summer camps as possible. That is what I would do if I was mayor of the community.
